DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25, 27, 28, and 31 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, (a) receiving a voltage demand signal indicative of a desired voltage of an electrical signal to be supplied to the electromagnet in a period; (b) generating first and second switching signals with reference to the voltage demand signal; and (c) applying the first and second switching signals to the first and second switches respectively during the period; wherein the switching signals cause the switches to switch between on and off states, switching between various combinations of on and off states of the first and second switches producing an electrical signal across the electromagnet with voltage pulses at levels of +VS, 0V and -VS, the first and second switching signals being generated such that an average voltage of the electrical signal supplied to the electromagnet during the period is substantially equal to the desired voltage. The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. J. Han whose telephone number is 571-272-2078. The examiner can normally be reached on Mon-Fri 6:30am-3:00pm.
